THE MOST ACCURATE AND EFFICIENT SYSTEM TO DE-CARBONATE BEVERAGE SAMPLES

BENEFITS:
- EXACT REPEATABLE DE-GASSING.
- REMOVES OPERATOR TO OPERATOR VARIATION.
- REPLICATE DE-GASSING STUDY RESULTS WITH EVERY SAMPLE EVERY TIME

COST BENEFIT:
- COMPLETE DE-GASSING IN 3 MINUTES.*
- NO MORE LINES STOPPED BECAUSE OF FALSE NEGATIVES.
- OPERATOR EFFICIENCY - PRESS START AND WALK AWAY.

* Somex recommend a de-gassing study to determine exact operating parameters

DID YOU KNOW?
Sample temperature and operator to operator variability are proven to have the greatest influence on de-gassing result. Somex’s unique control system measures exactly the volume of air delivered and ensures consistency of sample temperature.

Titratable Acidity
